Schoolgirls go green for a week

IT WAS all go for girls at Bridgine School as they made people green with envy to highlight environmental issues.

Pupils from the pre-nursery group through to the sixth form went green to school as part of Go Green Week.

Events took place throughout the school which saw the youngsters learn about everything from recycling to raising awareness about global caring.

Nine-year-old student Heba Belkacem said: "In year-five we had a pile of recycling things and in teams we had to make the words Go Green Day with them and it was quite difficult. The whole day was brilliant."

The fun took place at the King's Road School on Friday,
