Bright sparks puzzle it out

PUZZLING IT OUT: Dealing with those brain-teasers at Brigidine. Ref:105941-6

TALENTED pupils from eight schools enjoyed a puzzling day on Wednesday.

They visited Brigidine School in Kins Road, Windsor, to take part in a Numeracy Day – solving puzzles and enjoying activities and brain-teasers put together by ‘Professors O’Hara, Wright and Whittaker’ – better known as teachers Rebecca O’Hara, Karen Wright and Sarah Whittaker.

The visiting pupils were asked to come to Brigidine dressed in a costume with a numerical theme and it was obvious that many rooms had been very busy with the sewing machine and iron.

Faithie Milton, assistant head at Brigidine, who organised the day, said: “The children have had a wonderfully inspiring day, which has broadened their experiences both academically as well as socially.”
