SKILLFUL softball player Stenna Madden has just returned from competing for the Great Britain under-13 fastpitch team.

Stenna, 12, of Bury Avenue, who attends Driffield School, in Kings Road, came back from Turkey last weekend, where she won a medal after team GB finished in third place in the European

Championships. She has been playing since she was six years old, taking up the game – that is similar to baseball – while she was living in the USA.

Softball is a Madden family tradition and she joins sister Ceanna, 17, and brother Callan, 16, in representing Great Britain in the sport.
